

EXECUTIVE SUMMARY

Kitty Care & Casting is, at its core, an **animal care company**. We feed, groom, exercise, and care for animals while their owners are away or otherwise indisposed. However, what makes KC&C unique is our professional **animal videographers**. Not only do we take care of your pet, but **we'll make it a star, too.**

Because our service exists to shelter pets while their owners are away, our target market must be relatively **close to our base of operations**. Beyond geographic segmentation, however, we are further dividing our target market by demographics; we're targeting **18 to 45** men or women from an affluent background or in high-paying **entertainment careers**. Specifically, eccentric or humorous tech savvy pet owners who have a **public image** and may be recognized in celebrity tabloids.
